

Another Vanton AdVantage

# The Vanton Pump Technical Library

If you're pumping corrosives, handling aggressive or ultrapure fluids, need to eliminate product contamination, or ensure compliance with environmental regulations, Vanton's line of **Thermoplastic Pumps** provides solutions to answer virtually every concern.

Most questions are addressed in our **Technical Library** in scores of articles on a wide range of pumping issues. Just scan the **QR Code** below and we'll transport you directly to our archives. Of course we're always available to discuss your specific situation.

Just call us at **908.688.4216**  
...and think of it as  
another **Vanton AdVantage.**
